- Virtual Gym - Workout planning tool built with PHP, JQuery, AJAX, MySQL
 - Debt Descent - A debt payoff planning tool built using AngularJS
 - ListBuilder - To-do list builder created with AngularJS, JSON, and HTML5 LocalStorage
 - PunchClock - A work timer and invoice generator built with EmberJS
-

Work Experience

Vitro — Programmer Analyst I

10/2016 - Present

- After Vitro's acquisition of PPG, I gained divestiture experience and fully managed the transfer of several applications from one company to another while continuing to complete .NET projects.
- *Technologies:* ASP.NET, VB.NET, SQL, Visual Studio, Basecamp

PPG Industries — Programmer Analyst II & I

06/2015 - 10/2016

- Worked both in teams and individually to complete object oriented .NET/SQL projects to enhance business processes, developing both new software and maintaining/fixing legacy applications
- Project highlights included a production planning module and an order file conversion application
- Created SQL stored procedures and triggers for reports and to retrieve and store data
- Sole support of the business's CRM application, working closely with users in all parts of the business to customize solutions to their needs
- *Technologies:* ASP.NET, VB.NET, SQL, JavaScript, HTML, CSS, Visual Studio, TFS

PPG Industries — IT Intern

05/2014 - 08/2014

- Added mobile responsive competitor product matching feature to a web application
- Transformed the web app into a native app for Android and iPhone using Phonegap
- *Technologies:* C#, .NET, MVC, Cordova Phonegap, JavaScript, SASS, Linq

Penn State THON — Technology Captain

04/2014 - 04/2015

- Worked in a small team to complete a wide array of development projects needed by the various organizations supporting the largest student run philanthropy in the world. Projects included an inventory management and supply request system, as well as a participant medication entry system
- *Technologies:* PHP, SQL, MVC, JavaScript, Git, HTML, CSS

Penn State University — Web Developer

06/2013 - 04/2015

- Created and maintained several websites for various organizations within Penn State

Education

The Pennsylvania State University

08/2011 — 05/2015

- B.S. in Computer Science
- Minor in Information, Sciences and Technology
