-

Work Experience

Charles Schwab — Denver, CO

Software Engineer 03/2019 - Present

Associate Software Engineer 08/2017 - 03/2019

- Worked in a scrum team to design and develop features for an internal application
- Stood up and maintained .NET Core Microservices
- Helped implement quality standards via strict code reviews
- Lead security efforts for multiple applications, mitigating flaws before they reached production
- Helped in testing efforts by writing unit tests at every architectural layer, and wrote Ruby automation to verify behavioral aspects of applications
- *Technologies:* Angular 2+, Typescript, C#, .NET Core, Git, Ruby, BDD

PPG Industries / Vitro — Pittsburgh, PA

Programmer Analyst II 10/2016 - 07/2017

Programmer Analyst I 06/2015 - 10/2016

- Worked both in teams and individually to complete object oriented .NET/SQL projects to enhance business processes, developing both new software and maintaining/fixing legacy applications
- *Technologies:* ASP.NET, VB.NET, SQL, JavaScript, HTML, CSS, TFS

PPG Industries — Pittsburgh, PA

IT Intern 05/2014 - 08/2014

- Added mobile responsive competitor product matching feature to a web application
- Transformed the web app into a native app for Android and iPhone using Phonegap
- *Technologies:* C#, .NET, MVC, Cordova Phonegap, JavaScript, SASS, Linq

Penn State THON — State College, PA

Technology Captain 04/2014 - 04/2015

- Worked in a small team to complete a wide array of development projects supporting the largest student run philanthropy in the world
- *Technologies:* PHP, SQL, MVC, JavaScript, Git, HTML, CSS

Education

The Pennsylvania State University 08/2011 - 05/2015

- B.S. in Computer Science
- Minor in IST (Information, Sciences and Technology)
